DYNAMIC PHOTOGRAPHY

February,2018

Title – Dynamic transitions between images.

Involvement – Photographer and Video editor.

Description – To make photographs dynamic using effects and transitions in Adobe After Effects.

Canon Rebel T6i

<!-- AboutMe.html -->

I am currently enrolled in Post-Graduate Certificate at Algonquin College in Interactive Media Management Program.

In this program of study, I have gained experience in the development of web and learned the basics of design and graphics.

I have studied computer systems technician post-secondary program at Centennial college. This program taught me the working of some operating systems as well as about computer networks.
